

- Electronic fan speed controller
- Max. 16 Amps

fan speed controller type ESA/TSW

Electronic/Transformer fan speed controller.

Brand

- Helios Ventilation Systems

Application

- Designed for speed controllable single phase motors up to 16 amps.

Composition

- All models supplied with surface mount backing box
- Minimum & Maximum speed internal pre-set adjusters on all models
- Suitable for 2/3 wire control
- Electronic stepless speed control/Transformer stepped control
- Easy to install
