Features

PRODUCT FEATURES

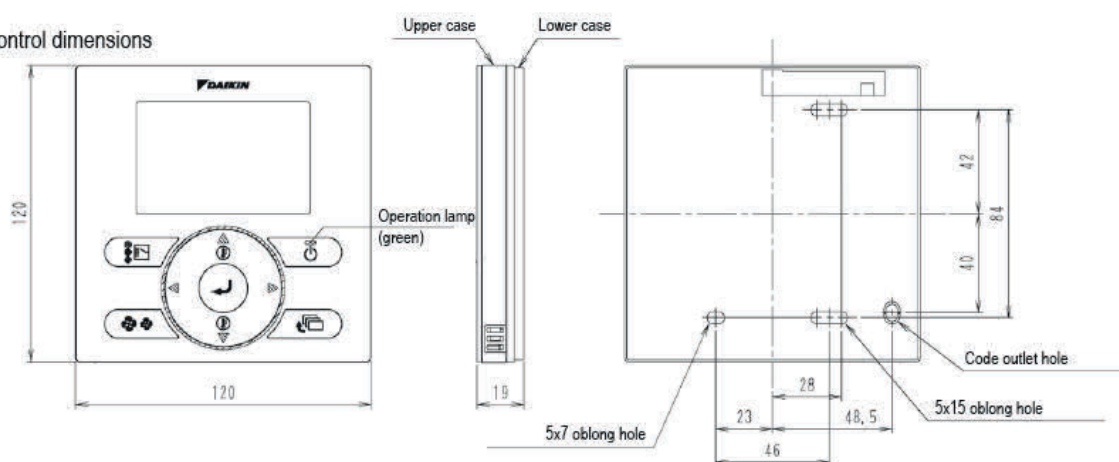

- User friendly simplified remote control with contemporary design
 - Duty rotation and back-up for infrastructure cooling
 - Easy commissioning: intuitive interface for advanced menu settings
 - Easy to use: all main functions are directly accessible. The screen turns off, when the indoor unit is not in use
 - Optimise your air conditioning system by activating a series of energy saving functions (temperature range limit, setback function, off timer, ...)
 - Keep track of your energy consumption with the kWh indication showing an indicative electricity consumption
 - Demand control decreases the power consumption to 70% or 40% when other larger appliances need to be switched on (Sky Air only)
 - The quiet mode function can be selected to reduce the sound of the outdoor unit
 - Set up to 3 independent schedules, so the user can easily change the schedule himself throughout the year (e.g. summer, winter, mid-season)
 - Automatic summer/winter time adjustment
 - Possibility to individually restrict menu functions
 - When a power failure occurs all settings remain stored thanks to the built-in backup power
 - Supports multiple languages: English, German, French, Dutch, Spanish, Italian, Portuguese
 - Home leave operation
- Maintains the indoor temperature at your specified comfort level during absence, thus saving energy
- Weekly timer
- Can be set to start heating or cooling anytime on a daily or weekly basis.
- Wired remote control
- Starts, stops and regulates the air conditioner.
- Infrastructure cooling

Remove in a reliable, efficient and flexible way the heat constantly generated by the IT and server equipment to ensure maximum uptime while offering the best return on investment.
