

Harp type R404a 10.0KG

Product Description

Harp 10.0kg cylinder contains R-404a, a HFC blend used mainly in air conditioning systems. Harp Refrigerant cylinders come with a 1 year free rental period (contact us for further details).

- Substitute for R502, with comparable physical and thermodynamic properties
- Near azeotropic refrigerant blend containing R-125, R-143A and R-134A
- Must be charged from the liquid phase for accurate composition
- Cylinder has dual port valve, making liquid off-take easier
- Non-flammable
- A1 safety classification
- Compressors must be charged with polyolester oils
